

NOTICE OF BRIDGE CONSTRUCTION

Scheifele Bridge Repairs Over The Conestogo River Township of Woolwich

The Regional Municipality of Waterloo will complete repairs to the Scheifele Bridge over Conestogo River during the summer of 2011 (see keymap).

Traffic will be maintained on Northfield Drive and across the structure by staging the rehabilitation half the width of the structure at a time using portable traffic control signals at either end of the bridge to alternate traffic flow. **Horse and buggy traffic will not have access to this crossing during construction and will be required to use an alternate posted route.**

We are advising that this project is expected to begin approximately May 2, 2011 and is estimated to take approximately 3 months to complete.

Thank you in advance for your patience and cooperation.

Should you have any questions on this project, please contact Ken Brisbois, Project Manager
Region of Waterloo Tel: 519-575-4606 or email:
