

NOTICE OF PESTICIDE USE

Application of Larvicide to catch basins for control of West Nile Virus Vectors

Between May 1 and October 31, 2010, municipalities within the Region of Waterloo will be conducting a larviciding program under the authority of the Region of Waterloo Medical Officer of Health to prevent the development of mosquito larvae into vectors of West Nile Virus. The pellet formulation of the larvicide methoprene (Altosid® PCPA #21809) or the pelleted/pouch formulation of the larvicide *Bs* (*Bacillus sphaericus*) (Vectolex® WSP PCPA #28009) will be placed into standing water in catch basins throughout the Region, where larvae are present. All larvicide will be applied by Ministry of the Environment licensed applicators or trained technicians employed by GDG Environnement Ltée.

For additional details on exact locations and dates of treatments, please call Region of Waterloo Public Health at 519-883-2008 or GDG Environnement at 1-888-567-8567. You can also visit our website at: www.region.waterloo.on.ca/fightthebite

NOTICE OF PESTICIDE USE

Application of Larvicide to ditches and depressions for control of West Nile Virus Vectors

Between May 1 and October 31, 2010, municipalities within the Region of Waterloo will be conducting a larviciding program under the authority of the Region of Waterloo Medical Officer of Health to prevent the development of mosquito larvae into vectors of West Nile Virus. The liquid formulation of the larvicide *Bti* (*Bacillus thuringiensis israelensis*) (Vectobac® 1200L PCPA #21062) or (Vectobac® 200G PCPA #18158) will be applied to standing water in ditches and depressions throughout the Region, where larvae are present. All larvicide will be applied by Ministry of the Environment licensed applicators or trained technicians employed by GDG Environnement Ltée.

For additional details on exact locations and dates of treatments, please call Region of Waterloo Public Health at 519-883-2008 or GDG Environnement at 1-888-567-8567. You can also visit our website at: www.region.waterloo.on.ca/fightthebite

NOTICE OF PESTICIDE USE

Application of Larvicide to sewage lagoons for control of West Nile Virus Vectors

Between May 1 and October 31, 2010, municipalities within the Region of Waterloo will be conducting a larviciding program under the authority of the Region of Waterloo Medical Officer of Health to prevent the development of mosquito larvae into vectors of West Nile Virus. The granular formulation of the larvicide *Bs (Bacillus sphaericus)* (Vectolex® CG PCPA #28008) will be applied to sewage lagoons within the Region, where larvae are present. All larvicide will be applied by Ministry of the Environment licensed applicators or trained technicians employed by GDG Environnement Ltée.

For additional details on exact locations and dates of treatments, please call Region of Waterloo Public Health at 519-883-2008 or GDG Environnement at 1-888-567-8567. You can also visit our website at: www.region.waterloo.on.ca/fightthebite
